

RACHANA

Aqueous Dispersions Latex Chemicals

Aqueous Dispersion Material Available for Sampling

Bostex 24 50% Dispersion of Wingstay L Antioxidant	Bostex 768 45% Zinc Stearate
Bostex 378 50% Dispersion of Sulphur	Bostex 580A 60% Dispersion of SSF
Bostex 422 60% Dispersion of Zinc Oxide	Bostex 841 50% Master batch cure dispersion for NR and latex foam
Bostex 497D 60% Dispersion of Titanium Dioxide	Bostex 851 Master batch Cure Dispersion for IR
Bostex 561 50% Dispersion of ZDEC	Bostex 862 Master batch Cure Dispersion for IR (DPG free)
Bostex 497B 50% Dispersion of ZDBC	Bostex 827 Master batch Cure Dispersion for Natural Latex
Bostex 417 40% Dispersion of DPG	Bostex 805 Master batch Cure Dispersion for CR Latex
Bostex 722 25% Emulsion of Potassium Laurate	Bostex 817 50% Master batch Cure Dispersion for Nitrile Latex

Latex Axillary Chemicals available for Sampling

Manawet WAQ Anionic stabilizer of Sodium alkyl surfactant.	Manawet 172 Amphoteric surfactant. Reduces Coagulam extends shelf life of latex compound.
Manawet SMO Sulfated Methyl Oleate. Surface Conditioning Agent for Latex Compounds	Manawet SBO Sulfated Butyl Oleate. An Environmentally Friendly Surface Conditioning Agent for Latex Compounds.
Manasperse SN Dispersing agent of Sodium Salt of condensed sulfonated Naphthalene. Equivalent to dispersing Agent No. 1	Manaspere LGS Dispersing agent of Sodium Salt of polymerized substituted Benzoid Alkyl Sulfonic Acids. Equivalent to dispersing Agent No. 2
Wax Emulsion ACT 47 A blend of paraffin and microcrystalline waxes in an anionic emulsion.	Defoamer 5729 Non-silicone anti-foaming agent. Emulsifying.
Antifoam 30L 30% Active Silicone anti-foaming agent	Antifoam FD-30 30% active Silicone anti-foaming agent for more stringent regulatory standards.
Manawet A-18 Classic non-gel surfactant of Disodium n-octadecyl Sulfosuccinamate. Used in foams.	Manathick 031 Thickening agent for latex foam. Sodium Polyacrylate base.
Manawet ALS-28 Fast foamer to boost foaming. Ammonium Lauryl Sulfate	Potassium Oleate 17 Surfactant in high solid Latices.
