

Product Advantages beyond Price

- Product produced by experts – It's been our only business, for almost 50 years and Akron Dispersion, Inc. is certified to ISO 9001-2008 with Design.
- Conveniently packaged product – pails, drums and totes.
- Fiber drums have 6-mil poly liner – they're the best in the industry.
- Uniform, consistent dispersions and emulsions.
- Particle size analyzed with laser diffraction technology.
- Product fully tested, certified, and documented.
- Akron Dispersions has product development expertise.
- Akron Dispersions has latex expertise.
- Can produce Masterbatches to reduce your Stock Keeping Units (SKU's)
- Masterbatches simplify compounding and reduce variability.
- Easy to read label also includes HMIS (Hazardous Materials Identification System) data.
- Technical support eagerly provided. We have extensive formulation expertise.
- Finer particle size means less ingredients could be added to formulation. High solids, high activity.
- You can reallocate your dispersion making personnel to other critical activities in your operation.
- State of the art equipment.
- Large volume discounts are provided.
- Friendly and helpful customer service.
- Product can be shipped all over India
- Sampling program available.
- Products typically have a 6-month shelf life.
